Please describe any qualifications, expertise or special interests that relate to your possible appointment:

I retired from the Federal Government (IRS) in 2022 after 36.5 years of service. I held a variety of positions during that time including supervisor, labor relations specialist, analyst and program manager. Most of my time was spent in the Human Resources field. My duties included working with management, unions and employees on a variety of complex issues. Work included negotiations, agreements, contractual requirements, compliance with federal regulations and disputes around contracts. I used my analytical skills and training to run a large federal program, Telework, for the IRS that exceeded 25 thousand employees. Telework was greatly impacted by COVID19 and supported the mission of the IRS (the number of teleworkers doubled). I have strong analytical skills and social skills from the time I worked for the federal government, which included a very diverse workforce. Personally, I support public transportation and even took advantage of the federal government program that paid for me to take public transport to and from work. Additionally, my 22 year old daughter with autism lives with us and will never drive so I'm hopeful that we can teach her how to use the Interurban.
